The major cloud providers' response to Covid19

Posted on 7th April, 2020 by Admin

One of the most publicized effects of the Covid-19 pandemic is that it has dramatically increased cloud adoption across the globe. As more enterprises switch over to the cloud, providers like Amazon's AWS, Google's GCP, and Microsoft's Azure are building out capacity in their data centers to meet the increase in demand. But that's not [...]
